3 Summary of significant accounting policies

The following significant accounting policies have been adopted by the Company in the preparation of the accompanying separate financial statements.

(a) Foreign currency transactions

Transactions in currencies other than VND during the year have been translated into VND at actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and the account transfer selling rate at the end of the annual accounting period, respectively, quoted by the commercial bank where the Company or its subsidiary most frequently conducts transactions.

All foreign exchange differences are recorded in the consolidated statement of income.

(b) Cash

Cash comprises cash balances and call deposits.

(c) Investment in subsidiary

For the purpose of these separate financial statements, investment in subsidiary is initially recognised at cost which includes purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, the investment is stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the subsidiary has suffered a loss, except where such a loss was anticipated by the Company's management before making the investment. The allowance is reversed if the subsidiary subsequently made a profit that offsets the previous loss for which the allowance had been made, An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

Notes to the separate financial statements

(d) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

(e) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and selling expenses.

The Compnay applies the perpetual method of accounting for inventory.

(f) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the consolidated statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of fixed assets. The estimated useful lives are as follow:

Machinery and equipment10-15 yearsMotor vehicles6-10 yearsOffice equipment3-10 years

(g) Finance lease tangible fixed assets

Leases in terms of which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Tangible fixed assets acquired by way of finance leases are stated at an amount equal to the lower of fair value and the present value of the minimum lease payments at inception of the lease, less accumulated depreciation.

Depreciation on finance leased assets is computed on a straight-line basis over the estimated useful lives of items of the leased assets. The estimated useful lives of finance leased assets are consistent with the useful lives of tangible fixed assets as described in accounting policy 3(f).

Notes to the separate financial statements

(h) Intangible fixed assets

Software

Cost of acquiring a new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software cost is amortised on a straight-line basis over 10 years.

(k) Trade and other payables

Trade and other payables are stated at their cost.

(l) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or contractual obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Severance allowance

Under the Vietnamese Labour Code, when employees who have worked for 12 months or more ("eligible employees") voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employees' compensation at termination. Provision for severance allowance has been provided based on employees' years of service and their current salary level.

Notes to the separate financial statements

Provision for severance allowance to be paid to the existing eligible employees as of 31 December 2018 has been made based on the eligible employees' years of service, being the total employees' years of service less the number of years for which the employees participated in and contributed to unemployment insurance in accordance with prevailing laws and regulations and the period for which severance allowance has been paid by the Company, if any, and their average salary for the six-month period prior to the end of the annual accounting period.

(m) Share capital

Ordinary shares

Incremental costs directly attributable to the issue of shares, net of tax effects, are recognised as a deduction from share premium.

(n) Taxation

Income tax on the consolidated profit or loss for the year comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(o) Revenue

Goods sold

Revenue from sale of goods is recognised in the separate statement of income when significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods. Revenue from sale of goods is recognised at the net amount after deducting sales discounts stated on the invoice.

Interest income

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

Notes to the separate financial statements

(p) Operating lease payments
