Notes to the consolidated financial statements

1. Reporting Entity

Interfood Shareholding Company ("the Company") is a joint stock company incorporated in Vietnam. The consolidated financial statements for the year ended 30 June 2015 comprises the Company and its subsidiary, Avafood Shareholding Company ("Avafood") (collectively "the Group"). The principal activities of the Group are to process agricultural and aquatic products into canned, dried, frozen, salted, and pickled products; and the production of biscuits and snack food; carbonated fruit juice and non-carbonated fruit juice, beverage with non-carbonated or carbonated, with or without low alcohol (less than 10%); bottled filtered water; manufactured packaging for foods and beverages; and performance of the right to export, import products in accordance with business operation as required by law

The Company owns 90.4% of the equity interests in Avafood, whose principal activities are to provide processing service and produce products including fruit juice, beverage, bottled filtered water; biscuits, jams and sweets, snack food; and from agricultural and aquatic products, livestock; lease a workshop, office; and performance of the right to export, import products in accordance with business operation as required by law under the Investment Licence No. 48/GP-DN issued by the People's Committee of Dong Nai Province on 19 July 2002.

The Company's shares were listed on the Ho Chi Minh Stock Exchange in accordance with the Listing License No. 61/UBCK-GPNY issued by the Ho Chi Minh City Stock Exchange on 29 September 2006.

According to the Announcement No. 395/2013 of Ho Chi Minh Stock Exchange, the Company's shares were delisted from 3 May 2013 and thereafter trading on Vietnam Security Depository.

As at 30 June 2015, the Group had 1,454 employees (the year ended 31 December 2014: 1,539 employees).

2. Basis of preparation

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System and the relevant statutory requirements.

(b) Basis of measurement

The consolidated financial statements, except for the statement of cash flows, are prepared on the accrual basis using the historical cost concept. The statement of cash flows is prepared using the indirect method.

Notes to the consolidated financial statements (continues)

(c) Going concern assumption

The consolidated financial statements have been prepared on a going concern basis. The Group has made loss after tax of 48,958 Million VND (2014: Loss 176,414 Million VND) during the year and at the balance sheet date, current liabilities still exceeded current assets by 109,988 Million VND (31/12/2014: 77,899 Million VND) but total assets has exceeded total liabilities by 52,328 Million VND (31/12/2014: 101,286 Million VND). Furthermore, the Group has significant loans that will require refinancing within the next 12 months (Note 12). The validity of the going concern assumption fundamentally depends on the ultimate majority shareholder continuing to provide such financial assistance as is necessary to enable the Group to meet its liabilities as and when they fall due and to maintain the Group in existence as a going concern for the foreseeable future.

At the time of this report, there is no reason for the management to believe that the ultimate majority shareholder will not continue its support.

(d) Annual accounting period

The annual accounting period of the Group is from 1 January to 31 December.

(e) Accounting currency

The Group maintains its accounting records in Vietnam Dong ("VND") and presents its consolidated financial statements in VND.

3. Summary of significant accounting policies

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

(ii) Transactions eliminated on consolidation

Intra-group balances, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

(b) Foreign currency transactions

From year 2012 onward, monetary assets and liabilities denominated in currencies other than VND are translated into VND at rates of exchange ruling at the balance sheet date. Transactions in currencies other than VND during the year have been translated into VND at rates approximating those ruling at the transaction dates.

All foreign exchange differences are recorded in the consolidated statement of income.

Notes to the consolidated financial statements (continues)

(c) Cash

Cash comprises cash balances and call deposits.

(d) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

(e) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and selling expenses.

The Group applies the perpetual method of accounting for inventory.

(f) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the consolidated statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of fixed assets. The estimated useful lives are as follow:

Buildings15-30 yearsMachinery and equipment10-15 yearsMotor vehicles6 yearsOffice equipment10 yearsERP System10 years

(g) Construction in progress

Construction in progress represents the cost of construction and machinery which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

Notes to the consolidated financial statements (continues)

(h) Long-term prepayments

(i) Prepaid land costs

Prepaid land costs comprise prepaid land lease rentals and other costs incurred in conjunction with securing the use of leased land. These costs are recognised in the consolidated statement of income on a straight-line basis over the term of the lease of 45.5 years.

(ii) Other expenses

Other expenses are initially stated at cost and are amortised on a straight line basis over 3 years starting from the date of completion of the work.

(i) Trade and other payables

Trade and other payables are stated at their cost.

(j) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or contractual obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Severance allowance.

Under the Vietnamese Labour Code, when employees who have worked for 12 months or more ("eligible employees") voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employees' compensation at termination. Provision for severance allowance has been provided based on employees' years of service and their current salary level.

Pursuant to Law on Social Insurance, effective from 1 January 2009 the Group and its employees are required to contribute to an unemployment insurance fund managed by the Vietnam Social Insurance Agency. The contribution to be paid by each party is calculated at 1% of the lower of the employees' basic salary and 20 times the general minimum salary level as specified by the Government from time to time. With the implementation of unemployment insurance scheme, the Group is no longer required to provide severance allowance for the service period after 1 January 2009. However, severance allowance to be paid to the existing eligible employees as of 30 June 2015 will be determined based on the eligible employees' years of service as of 31 December 2008 and their average salary for the six-month period prior to the termination date.

(k) Classification of financial instruments

Solely for the purpose of providing disclosures about the significance of financial instruments to the Group's consolidated financial position and consolidated results of operations and the nature and extent of risk arising from financial instruments, the Group classifies its financial instruments as follow:

Notes to the consolidated financial statements (continues)

(i) Financial assets

Financial assets at fair value through profit or loss.

A financial asset at fair value through profit or loss is a financial asset that meets either of the following conditions:

- It is considered by management as held for trading. A financial asset is considered as held for trading if:
- it is acquired principally for the purpose of selling it in the near term;
- there is evidence of a recent pattern of short-term profit-taking; or;
- a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument)
- Upon initial recognition, it is designated by the Group as at fair value through profit or loss.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and a fixed maturity that the Group has the positive intention and ability to hold to maturity, other than:

- those that the Group upon initial recognition designates as at fair value through profit or loss;
- those that the Group designates as available-for-sale; and;
- those that meet the definition of loans and receivables.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than those:

- that the Group intends to sell immediately or in the near term, which are classified as held for trading, and those that the entity on initial recognition designates as at fair value through profit or loss;
- that the Group upon initial recognition designates as available-for-sale; or
- for which the Group may not recover substantially all of its initial investment, other than because of credit deterioration, which are classified as available-for-sale

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale or those are not classified as:

- financial assets at fair value through profit or loss
- held-to-maturity investments; or
- loans and receivables.

The Company's financial assets, comprising cash in bank, accounts receivable and other receivables, are under the category of loans and receivables.

Notes to the consolidated financial statements (continues)

(ii) Financial liabilities

Financial liabilities at fair value through profit or loss

A financial liability at fair value through profit or loss is a financial liability that meets either of the following conditions:

- It is considered by management as held for trading. A financial liability is considered as held for trading if:
- it is incurred principally for the purpose of repurchasing it in the near term;
- there is evidence of a recent pattern of short-term profit-taking; or;
- a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument)
- Upon initial recognition, it is designated by the Group as at fair value through profit or loss.

Financial liabilities carried at amortised cost

Financial liabilities which are not classified as financial liabilities at fair value through profit or loss are classified as financial liabilities carried at amortised cost.

The Group's financial liabilities, comprising borrowings, accounts payables and other payables, are under the category of financial liabilities carried at amortised cost.

The above described classification of financial instruments is solely for presentation and disclosure purpose and is not intended to be a description of how the instruments are measured. Accounting policies for measurement of financial instruments are disclosed in other relevant notes.

(l) Taxation

Income tax on the consolidated profit or loss for the year comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the balance sheet date.

Notes to the consolidated financial statements (continues)

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(m) Acquisition reserve

Acquisition reserve represents the difference between the consideration given and the aggregate value of the assets and liabilities of the acquired entity in a business combination involving entities under common control.

(n) Revenue

Goods sold

Revenue from the sale of goods is recognised in the consolidated statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods.

(o) Operating lease payments

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense

(p) Borrowing costs

Borrowing costs are recognised as an expense in the year in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.

(q) Earnings per share

The Group presents basic earnings per share ("EPS") for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year. The Group does not present diluted EPS as it has no potential ordinary shares.

(r) Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Group's primary format for segment reporting is based on business segments.

Notes to the consolidated financial statements (continues)

(s) Related companies

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

4. Segment reporting

The Group mainly operates in one business segment, which is the production and sales of beverage and in one geographical segment, which is Vietnam. During the year, the Group was involved in certain production and trading transactions of biscuits and other related products which do not qualify as separate segments

18. Deferred tax liabilities

(i) Recognised deferred tax liabilities

Deferred tax liabilities related to temporary differences arising from depreciation of fixed assets.

(ii) Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items:

	30/06/2015		31/12/2014	
	Temporary difference		Temporary difference	Tax value
	VND'000	VND'000	VND'000	VND'000
Deductible temporary differences	39,162,074	8,615,656	57,434,153	12,635,514
Taxes loss	120,727,963	26,560,152	55,323,290	12,171,124
	159,890,037	35,175,808	112,757,443	24,806,637

The tax losses expire in the following years:

Year of expiry	Status of tax review	Tax losses available
2017	Outstanding	14,604,263
2019	Outstanding	37,786,831
2020	Outstanding	68,336,869
		120,727,963

The deductible temporary differences other than tax losses do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Group can utilise the benefits therefrom.

19. Provision for severance allowance

Movements of provision during the year were as follow:

	30/06/2015	31/12/2014
	VND'000	VND'000
Opening balance	3,076,345	3,124,794

(a) In 2007, the Group acquired 90% shareholding of Avafood in a business combination under common control. In 2012, the Group increased its shareholding of Avafood to 90.4%. This amount represents the difference between consideration given and the net amounts of assets and liabilities of Avafood attributable to the Group at the acquisition date.

(b) On 1 January 2013, the Group changed its accounting currency from United States Dollars (USD) to Vietnam Dong (VND) in accordance with the requirements of Circular No. 244/2010/TT/BTC dated 31 December 2009 of the Ministry of Finance (Circular 244). Accordingly, all balances in USD as at 31 December 2012 have been translated to VND at the exchange rate of VND20,828 to USD1. This amount represents the difference between the converted value and par value of ordinary shares in VND.

(c) Applicable tax rates

Under the terms of the Company's Investment Certificate, the Company has an obligation to pay the government income tax at the rate of 15% of taxable profits for the first 12 years starting from the first year of operation (1994). Thereafter, from 2006 to 2013, the Company is subject to income tax at the rate of 25% and from 2014 onward will be 22%.

According to Decree No. 24/2007/ND-CP dated 14 February 2007 (which replaced Decree No. 164/2003/ND-CP dated 22 December 2003), the Company is entitled to tax incentives in relation to the relocation of its business activities out of an urban area. In 2006, the Company relocated one of its production lines from Bien Hoa City to Tam Phuoc Industrial Zone, Bien Hoa City. As a result, profit derived from this line is exempted from corporate income tax for two years and a reduction of 50% for the following six years. Also as stated in this Decree, the Company is entitled to tax incentives in relation to investments made in new production lines that are qualified under this Decree. The tax incentives include one year of exemption from corporate income tax and a reduction of 50% for the following four years applied to profit derived from the new production lines.

Notes to the consolidated financial statements (continues)

Under Decree No. 124/2008/ND-CP dated 11 December 2008 (which replaced Decree No. 24/2007/ND-CP dated 14 February 2007) and Decree 122/2011ND-CP dated 27 December 2012 (which provided a number of amendments to prevailing Decree No124/2008/ND-CP), the Company will continue to enjoy its tax incentives under Decree No. 24/2007/ND-CP dated 14 February 2007.

29. Loss per share

- **30.** Financial instruments
- (a) Financial risk management
- (i) Overview

The Group has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk; and
- market risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board is responsible for developing and monitoring the Group's risk management policies.

Notes to the consolidated financial statements (continues)

(b) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

(i) Exposure to credit risk

The total of carrying amounts of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follow:

	2015	2014
	VND'000	VND'000
Cash in bank	71,646,477	114,171,663
Trade and other receivables	19,311,733	34,994,060
	90,958,210	149,165,723

(ii) Cash in bank

The cash at bank of the Group is mainly held with well-known financial institutions. Management does not foresee any significant credit risks from these deposits and does not expect that these financial institutions may default and cause losses to the Group.

(iii) Trade and other receivables

The carrying amount of receivables represents the maximum credit risk pertaining to receivables.

The Group's exposure to credit risk in relation to receivables is mainly influenced by the individual characteristics of each customer. In response to the risk, the Group has established a credit policy under which most customers have to settle payment in advance before the goods delivery is carried out. Only customers considered with high creditworthiness by the management are offered credit terms. Receivables are due within 30 days to 45 days from the date of billing. Debtors with balances that are overdue are requested to settle the balances and management will perform an assessment before further credit is granted. No collateral is collected from the customers.

Based on historic default rates, the Group has made allowance for doubtful debts is necessary in respect of the outstanding trade and other receivables as of 30 June 2015.

The aging of trade and other receivables at reporting date that were past due but not impaired is as follows:

	30/06/2015	31/12/2014
	VND'000	VND'000
Non past due	13,055,950	18,186,392

Over 180 days	2,682,677	1,736,821
	21,357,201	37,039,528

Notes to the consolidated financial statements (continues)

(c) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group also manages its borrowings from related companies by managing the financing terms with the related companies.

Financial liabilities with fixed or determinable payments have the following contractual maturities including the estimated interest payments:

30/06/2015	Carrying amount. VND'000	Contractual cash flows VND'000	Within 1 year VND'000	1 – 2 years VND'000	2 – 5 years VND'000

	546,713,342	554,175,579	411,553,355	2,634,871	139,987,353

The Group manages its ability to meet the expected operational expenses and servicing its debts by maintaining several financial facilities as follow:

 \bullet USD 3.5 million unused short-term loan facility which renew automatically at the option of Group. Interest would be payable at rates of Libor + 0.8% per annum.

(d) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Notes to the consolidated financial statements (continues)

(i) Currency risk

The Group is exposed to currency risk on sales and purchases that are denominated in a currency other than the accounting currency of the Group. The currency in which these transactions primarily are denominated is VND.

The Group's exposure to currency risk is managed by keeping the exposure to an acceptable level by entering into currency transactions to address short-term over-exposures.

Exposure to currency risk

At 30 June 2015 and year 2014, the Group had the following net monetary liability position exposed to currency risk. The following balances are presented in original currency:

Cash Accounts receivable – trade. Short-term borrowings Account payables.	USD 30/06/2015 945,424 221,869 (13,000,000) (234,630)	USD 31/12/2014 2,230,894 339,568 (11,500,000) (197,469)

31/12/2014. USD (1% strengthening)		Increase in net loss. VND'000 31/12/2014 2,658,977

The opposite movement of the currencies would have the equal but opposite effect to the net loss of the Group.

Notes to the consolidated financial statements (continues)

(ii) Interest rate risk

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments was:

	Carrying amount		
Fixed rate instruments.	30/06/2015 VND'000	31/12/2013 VND'000	
Financial liabilities.	(141,960,000)	(138,970,000)	
Variable rate instruments.			
Financial assets.	71,646,477	114,171,663	
Financial liabilities.	(283,920,000)	(245,870,000)	
	(212,273,523)	(131,698,337)	

A change of 100 basis points in interest rates would have increased net losses of the Company by Million VND 1,656 (2014: Million VND 1,027). This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

No policy was in place pertaining to the mitigation of potential volatility of the interest rate.

(e) Fair value

The Group has not determined fair values of financial assets and liabilities in accordance with Article 28 of Circular No. 210/2009/TT-BTC dated 6 November 2009 of the Ministry of Finance because (i) quoted prices in active market are not available for these financial assets and liabilities; and (ii) Vietnamese Accounting Standards and the Vietnamese Accounting System do not provide guidance on measurement of fair values in the case where quoted prices in active market are not available. Fair values of these financial instruments may be different from their carrying values.
