Interfood Shareholding Company

Report of the Board of Directors

The Board of Directors of Interfood Shareholding Company ("the Company") presents this statement and the accompanying separate financial statements of the Company for the year ended 30 June 2016.

The Board of Directors is responsible for the preparation and fair presentation of the separate financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting. In the opinion of the Board of Directors:

- (a) (a) the separate financial statements set out on pages 4 to 26 give a true and fair view of the unconsolidated financial position of the Company as at 30 June 2016, and of its unconsolidated results of operations and its unconsolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting; and
- (b) at the date of this statement, there are no reasons to believe that the Company will not be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised the accompanying separate financial statements for issue.

Notes to the separate financial statements

1. Reporting Entity

(a) Ownership structure

Interfood Shareholding Company ("the Company") is incorporated as a joint stock company in Vietnam.

The Company's shares were listed on the Ho Chi Minh Stock Exchange in accordance with the Listing License No. 61/UBCK-GPNY issued by the Ho Chi Minh City Stock Exchange on 29 September 2006.

According to the Announcement No. 395/2013 of Ho Chi Minh Stock Exchange, the Company's shares were delisted from 3 May 2013 and thereafter trading on Vietnam Security Depository.

(b) Principal activities

The principal activities of the Company are to process agricultural and aquatic products into canned, dried, frozen, salted, and pickled products; the production of biscuits and snack food; carbonated and non-carbonated fruit juice, non-carbonated and carbonated beverages, with or without low level of alcohol (less than 10%); bottled filtered water; packaging for foods and beverages; and to export, import products in accordance with business operation.

(c) Normal operating cycle

The normal operating cycle of the Company is generally within 12 months.

(d) Company structure

As at 30 June 2016, the Company had 1,261 employees (31/12/2015: 1,323 employees).

2. Basis of preparation

(a) Statement of compliance

The separate financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for the enterprises and the relevant statutory requirements applicable for financial reporting. The company prepares and issues its consolidated financial statements separately. For a comprehensive understanding of the Company's consolidated financial position, its consolidated results of operations and its consolidated cash flows. These separate financial statements should be read in conjunction with the consolidated financial statements

(b) Basis of measurement

The separate financial statements, except for the separate statement of cash flows, are prepared on the accrual basis using the historical cost concept. The separate statement of cash flows is prepared using the indirect method

Ar.

Notes to the separate financial statements

(c) Going concern assumption

The separate financial statements have been prepared on a going concern basis. The Company incurred net profit after tax of VND 8,395 million (2015: Loss VND101,203 million) during the year. Furthermore, the Company had significant loans that will require refinancing within the next 12 months (Note 19). The validity of the going concern assumption fundamentally depends on the Company generating enough operating and financing cash flows to meet the operational expenses and on the ultimate majority shareholder continuing to provide such financial assistance as is necessary to enable the Company to meet its liabilities as and when they fall due and to maintain the Company in existence as a going concern for the foreseeable future.

At the time of this report, the Company had USD17.5 million unused short-term facility which can be used to meet the operational expenses and there is no reason for the management to believe that the ultimate majority shareholder will not continue its support.

(d) Annual accounting period

The annual accounting period of the Company is from 1 January to 31 December.

(e) Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"). The separate financial statements are prepared and presented in Vietnam Dong rounded to the nearest thousand ("VND'000").

At the time of this report, the Company had USD17.5 million unused short-term facility which can be used to meet the operational expenses and there is no reason for the management to believe that the ultimate majority shareholder will not continue its support..

3. Adoption of new guidance on accounting system for enterprises

On 22 December 2014, the Ministry of Finance issued Circular No. 200/2014/TT-BTC providing guidance on Vietnamese Accounting System for enterprises ("Circular 200"). Circular 200 replaces previous guidance on Vietnamese Accounting System for enterprises under Decision No. 15/2006/QD-BTC dated 20 March 2006 and Circular No. 244/2009/TT-BTC dated 31 December 2009. Circular 200 is effective after 45 days from the signing date and applicable for annual accounting periods beginning on or after 1 January 2015.

On the same date of 22 December 2014, the Ministry of Finance also issued Circular No. 202/2014/TT-BTC providing guidance on preparation and presentation of consolidated financial statements ("Circular 202"). Circular 202 replaces previous guidance on preparation and presentation of consolidated financial statements provided in Part XIII of Circular No. 161/2007/TT-BTC dated 31 December 2007 of the Ministry of Finance. Circular 202 is also effective after 45 days from the signing date and applicable for annual accounting periods beginning on or after 1 January 2015.

The Company has adopted the applicable requirements of Circular 200 and Circular 202 effective from 1 January 2015 on a prospective basis. The significant changes to the Company's accounting policies and the effects on the separate financial statements, if any, are disclosed in the following note to the separate financial statements:

■ Recognition of foreign exchange differences (Note 4(b)).

Notes to the separate financial statements

4. Summary of significant accounting policies

(a) Foreign currency transactions

Transactions in currencies other than VND during the year have been translated into VND at actual rates of exchange ruling at the transaction dates. The actual rates of exchange applied to account for foreign currency transaction are determined as follows:

- Exchange rate applied to buying or selling foreign currency is the exchange rate stipulated in the currency exchange contract between the Group and the bank.:
- Exchange rate applied to capital contribution transaction is the foreign currency buying rate at the transaction date quoted by the bank through which the investor transfers funds for the capital contribution.
- Exchange rate applied to recognise trade and other receivables is the foreign currency buying rate at the transaction date quoted by the bank through which the Group receives money from the customer or counterparty.
- Exchange rate applied to recognise trade and other payables is the foreign currency selling rate at the transaction date quoted by the bank through which the Group intends to make payment for the liability.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at actual rates of exchange ruling at the balance sheet date. The actual rates of exchange applied to retranslate monetary items denominated in foreign currency at reporting date are determined as follows:

- For monetary assets (cash and receivables): the foreign currency buying rate at the reporting date quoted by the commercial bank where the Group most frequently conducts transactions. Cash at banks and bank deposits are retranslated using the foreign currency buying rate of the bank where the Group deposits the money or maintains those bank accounts.
- For monetary liabilities (payables and borrowings): the foreign currency selling rate at reporting date quoted by the commercial bank where the Group most frequently conducts transactions.

All foreign exchange differences are recorded in the consolidated statement of income.

■ For asset acquisitions or expenses that are settled with immediate payment, the exchange rate applied is the foreign currency buying rate at the transaction date quoted by the bank through which the Group makes payment.

(b) Cash

Cash comprises cash balances and call deposits.

Notes to the separate financial statements (continues)

(c) Investment in subsidiary

For the purpose of these separate financial statements, investment in subsidiary is initially recognised at cost which includes purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, the investment is stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the subsidiary has suffered a loss, except where such a loss was anticipated by the Company's management before making the investment. The allowance is reversed if the subsidiary subsequently made a profit that offsets the previous loss for which the allowance had been made, An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(d) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

(e) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and selling expenses.

The Compnay applies the perpetual method of accounting for inventory.

- (f) Tangible fixed assets
- (i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the consolidated statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of fixed assets. The estimated useful lives are as follow:

Machinery and equipment
Motor vehicles

Office equipment

10 - 15 years

6 years

10 years

H.11 2 . C. C. 14.8

Interfood Shareholding Company

Notes to the separate financial statements (continues)

(g) Intangible fixed assets

Software

Cost of acquiring a new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software cost is amortised on a straight-line basis over 10 years.

(h) Construction in progress

Construction in progress represents the cost of construction and machinery which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

(i) Long-term prepaid expenses

(i) Renovation expense

Other expenses are initially stated at cost and are amortised on a straight line basis over 3 years starting from the date of completion of the work.

(ii) Tools and supplies

Tools and supplies include assets held for use by the Group in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulation. Cost of tools and supplies are amortised on a straight-line basis over 3 years.

(iii) Insurance and rental expenses

Insurance and rental expenses are initially stated at cost and are amortised on a straight-line basis over the insurance and rental terms.

(j) Trade and other payables

Trade and other payables are stated at their cost.

(k) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or contractual obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Severance allowance

Under the Vietnamese Labour Code, when employees who have worked for 12 months or more ("eligible employees") voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employees' compensation at termination. Provision for severance allowance has been provided based on employees' years of service and their current salary level.

92

Notes to the separate financial statements (continues)

Pursuant to Law on Social Insurance, effective from 1 January 2009 the Group and its employees are required to contribute to an unemployment insurance fund managed by the Vietnam Social Insurance Agency. The contribution to be paid by each party is calculated at 1% of the lower of the employees' basic salary and 20 times the general minimum salary level as specified by the Government from time to time. With the implementation of unemployment insurance scheme, the Group is no longer required to provide severance allowance for the service period after 1 January 2009. However, severance allowance to be paid to the existing eligible employees as of 30 June 2016 will be determined based on the eligible employees' years of service as of 31 December 2008 and their average salary for the six-month period prior to the termination date.

(l) Share capital

Ordinary shares

Incremental costs directly attributable to the issue of shares, net of tax effects, are recognised as a deduction from share premium.

(m) Taxation

Income tax on the consolidated profit or loss for the year comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(n) Revenue

Goods sold

Revenue from the sale of goods is recognised in the consolidated statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods.

Interest income

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

Notes to the separate financial statements (continues)

(o) Operating lease payments

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense

(p) Borrowing costs

Borrowing costs are recognised as an expense in the year in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.

(q) Related companies

EB Services Co., Ltd.

Others

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

2017	Outstanding	8,084,006
2019	Outstanding	37,786,831
2020	Outstanding	68,803,712
2021	Outstanding	5,862,669
		120,537,219

Notes to the separate financial statements (continues)

The deductible temporary differences do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilise the benefits therefrom.

(d) Applicable tax rates

Under the terms of the Company's Investment Certificates, the Company has an obligation to pay the government income tax at the rate of 15% of taxable profits for the first 12 years starting from the first year of operation (1994). Thereafter, from 2006 onwards the Company is subject to income tax rate applicable to enterprises before any incentives of 25%.

According to Decree No. 24/2007/ND-CP dated 14 February 2007 (which replaced Decree No. 164/2003/ND-CP dated 22 December 2003), the Company is entitled to tax incentives in relation to the relocation of its business activities out of an urban area. In 2006, the Company relocated one of its production lines from Bien Hoa City to Tam Phuoc Industrial Zone, Bien Hoa City. As a result, profit derived from this line is exempted from corporate income tax for two years and a reduction of 50% for the following six years. Also as stated in this Decree, the Company is entitled to tax incentives in relation to investments made in new production lines that are qualified under this Decree. The tax incentives include one year of exemption from corporate income tax and a reduction of 50% for the following four years applied to profit derived from the new production lines.

Under Decree No. 124/2008/ND-CP dated 11 December 2008 (which replaced Decree No. 24/2007/ND-CP dated 14 February 2007) and Decree No. 122/2011/ND-CP dated 27 December 2012 (which provided a number of amendments to prevailing Decree No. 124/2008/ND-CP), the Company will continue to enjoy its tax incentives under Decree No. 24/2007/ND-CP dated 14 February 2007.

According to Letter No. 11924/TC-CST dated 20 October 2004 issued by the Ministry of Finance, the Company is entitled to a 50% reduction for two years after listing its shares in Ho Chi Minh City Securities Trading Centre. The Company has completed the registration with the tax authority to apply the incentives commencing from 2007.

The usual income tax rate applicable to enterprises before any incentives is 22% for 2015, and will be reduced to 20% from 2016..
